SUMMARY

Passionate Unreal Engine Gameplay Developer with hands-on experience building gameplay systems using Unreal Engine 5.6, C++, and Blueprints. Experienced in developing gameplay mechanics, AI systems, grid-based game architecture, UI systems, physics interactions, and game prototypes through personal projects and game jams. Strong understanding of Unreal Gameplay Framework, Object-Oriented Programming, debugging, and version control

EDUCATION

Monolith Research and Training Labs Pvt Ltd, Chennai, Tamil Nadu

Advanced Diploma in Game Design and Development

2025 – 2026

Mailam Engineering College, Villupuram, Tamil Nadu

Bachelor of Technology (Information Technology), CGPA: 8.1

2021 – 2025

PROJECTS

Eternal Check Prototype | UE5.6, C++

Jan 2025

- Turn-based tactical strategy prototype with custom 10×10 grid.
- Built Grid Manager, Tile System, Unit System, Turn Manager, movement and attack logic

Star Stuff | UE5.6, Blueprints

May 2025

- Space shooter prototype created during Global Game Jam 2026
- Implemented spaceship controls, enemy spawning, weapons, score system, gameplay loop

Beneath The Mask | Global Game Jam 2026 Project

Feb 2025

- Collaborated in a team to deliver a playable prototype within 48 hours

Cat Endless Runner | UE5.6, Blueprints

Apr 2025

- Endless runner featuring modular Blueprint gameplay systems, obstacle spawning, lane switching, UI and camera systems

TECHNICAL SKILLS

Game Development: Unreal Engine 5, Unity 6, Gameplay Programming, Blueprint Visual Scripting, Unreal C++, Gameplay Framework, UMG, Physics Systems, Input Systems.

Programming: C++, C#, Java.

Tools: Unreal Engine, Visual Studio 2022, Git, GitHub, Blender, Photoshop, Diversion

Core Concepts: Object-Oriented Programming, Gameplay Architecture, Blueprint Communication, Event Dispatchers, Delegates, Debugging, Version Control.

GAMEPLAY MECHANICS

Character Movement, Enemy AI, Grid-Based Gameplay, Turn-Based Combat, UI Systems (UMG), Camera Systems, Input Mapping, State Management, Physics-based Gameplay

CAREER INTERESTS

- Unreal Developer- Unity Developer – Gameplay Programmer –PC & Mobile Game Developer - Technical Design
